see people having to increase because other companies are raising their wages.

He said there was still room for caution and the bank was waiting to see if the shifts will continue in the future, and will they will spread and be sustained.

The bank announced last month a 'broad-perspective' review of its easing, with a timeframe of 12-18 months.

There has been criticism of the market distortions created by the BoJ's policy, and also a perception that it has worked hand-in-glove with a government that has an interest in keeping rates low given its astronomical debt-to-GDP ratio.

But Ueda insisted the bank's policies were not driven by the government's spending plans or its finances.

April:

eral Open Markets Committee (FOMC), including Powell, have suggested rates may have risen far enough to bring inflation down, while others, like Dallas Fed president Lorie Logan, have indicated their preference for another rate hike at the next meeting in June.

Futures traders now see the most likely scenario being another interest-rate hike from the Fed on June 14, according to data from CME Group.
